FEATURE

- The product is finished with a highly transparent base material, and it is ideal for window signs because it can express wonderful colors.
- We have a lineup of aqueous, solvent, and latex/UV based products which will definitely suit your needs.
- LCF-BH and LCF-BMH have a hard coating back side so scratches on the back can be prevented when printing.

APPLICATION

- Acrylic boards
- Short-term outdoor sign
- * Some products require lamination. *
- Window graphics
