VONT Interior Films

Revitalize your space affordably with Vont Media's Interior Films—an economical and stylish solution to redecorate your business, school, or home. Enjoy the convenience of dry application, and without the need for a heat gun, making the transformation process a breeze.

TECHNICAL DATA SHEET

Safety meets sophistication as our Interior Films are not only fire retardant but also water-resistant, providing comprehensive protection for your surfaces. Opt for our higher grade, engineered to resist heat for a prolonged period, ensuring your designs stay vibrant without premature discoloration.

PRODUCT NAME	ITF
BASE	
Type	Calendered Polymeric Vinyl
Surface	Various
Thickness	150 ~ 200 μm (5.9 ~ 7.9 mil)
Weight	320 GSM
Gloss (60° angle)	>85
Tensile Strength	MD 3450 gf/cm, TD 3000 gf/cm
Elongation Break	MD 175%, TD 190%
ADHESIVE	
Type	Clear, Permanent, Acrylic, Bubble-Free
Thickness	40 μm (1.6mil)
Color	Clear
Strength 20 Minutes (Stainless Steel)	20N/25mm
Strength 24 Hours (Stainless Steel)	24N/25mm
LINER	
Type	Double PE Paper
Thickness	175 μm (7 mil)
PERFORMANCE	
Application Temperature	15°C ~ 25°C (59°F ~ 77°F)
Service Temperature	10°C ~50°C (50°F ~ 122°F)
Shelf Life	2 Years
Storage Temperature	15°C to 22°C (59°F to 72°F)
Storage Humidity	50 - 55%

TECHNICAL DATA SHEET

Experience durability with a hard coat that shields against both light scratches and water, keeping your surfaces looking pristine even in high-moisture environments. With a diverse selection of over 200 designs, you have the freedom to choose a look that complements your unique aesthetic.

Elevate your surroundings effortlessly with Vont Media's Interior Films-where affordability meets ease of application, safety intertwines with style, and a world of design possibilities awaits. Redefine your space today with films that not only transform but also protect against the elements.

INK	
Eco-Solvent, Latex, UV	
SIZE	
Width	1220mm (48")
Length	50m (164')
NOTES	
Regular cleaning will help maintain the appearance of the surface. Use mild detergent and water, and a soft cloth or sponge without abrasives.	
Hardcoated (durable against normal daily use)	
Dry application. Heat gun not necessary.	
Fire Retardant. We offer a higher grade as well that resists heat longer so the ink doesn't turn black as quickly.	
Water resistant.	
228 designs to choose from!
